Community Support Program

Process Map

Australian Supporter(s)

Could be relatives, community organisations, businesses or registered charities who enter into an arrangement with IOM to support the applicants. They would provide support in following ways:

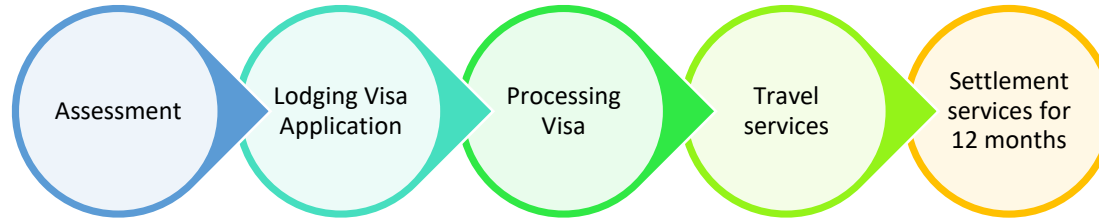

- introducing clients to IOM
- setting up employment pathways for applicant
- paying costs relating to the services provided
- providing an Assurance of Support (AoS)

Employers

IOM and the Australian supporters will reach out to employers who are able to provide assistance to applicants with sustainable employment to create a pathway to financial independence in 12 months. Employers can also act as Australian supporters by introducing clients to IOM.

Humanitarian Settlement Service Providers (HSPs)

HSPs will be engaged at the visa lodgement stage to ensure that the client has services available when the client arrives in Australia.
